

## Garage Door Mfr. Cuts Invoice Processing Costs

### Content Mgmt. System Consolidation and Integration Optimizes AP Process

#### Company

Leading provider of overhead and garage door systems

#### Business Pains

- 5 operational divisions were operating with separate content systems.
  - No integration existed to Oracle EBS
  - AP invoices were unavailable for auditing.
- Needed one enterprise content management system.

#### Solution

- A scalable WebCenter Content repository to use as an enterprise content management system
- An image capture system to ease document input and provide access via portal / EBS.
- WebCenter Imaging with an integrated image viewer that can perform secure annotations.
- AP Invoice Processing-Key-From-Imaging (KFI) solution to process invoices across the 5 divisions.

#### Benefits

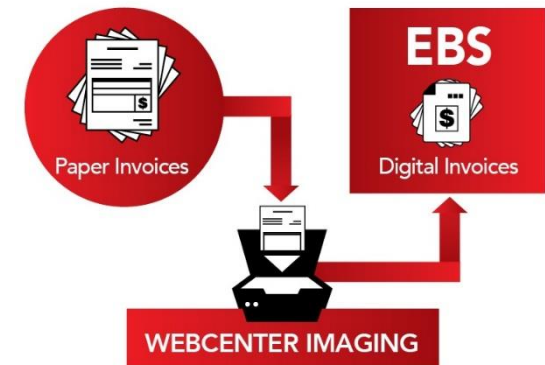

- Auditing's access to needed documents is now instantaneous – down from a 3-6 month wait time.
- Additional savings due to reduced paper costs and paper transportation costs
- Improved ROI through dynamic discounting, late-payment fee elimination and improved throughput

**INSTANT** access to needed documents enables real-time audit management.

**40%** processing cost reduction with high level of automation... IOMA

Companies spend \$20 to file a document, \$120 to find a misfiled document and \$220 to reproduce a lost document... Association for Information and Image Mgmt.
