THE DIGITAL HUB TOOLKIT

Unlock your legacy apps with a fast, agile approach to cloud-based IT modernization

EXTENSIVE LEGACY INFRASTRUCTURE. PROPRIETARY TOOLS AND PROCESSES. ENDLESS PRESSURE FROM THE BUSINESS. MINIMAL BUDGET. WELCOME TO THE WORLD OF ENTERPRISE IT.

You need to deliver a modern digital experience to meet the needs of your customers, employees, and partners – without rebuilding your IT infrastructure from scratch. How can you take advantage of cloud, mobile, big data and more while maximizing the use of your legacy applications?

BUILD A DIGITAL HUB WITH KESTE. WITH THE KESTE FRAMEWORK, YOU WILL:

- **Launch new digital services, powered by legacy applications.** Provide innovative sales and service solutions without retooling your back-end infrastructure.
- **Create unified experiences across your technology stack.** Connect legacy apps to modern cloud services for holistic, user-friendly experiences.
- **Enable 360 degree engagement.** Exceed user expectations at every stage of the lifecycle with anytime, anywhere, data-driven services.

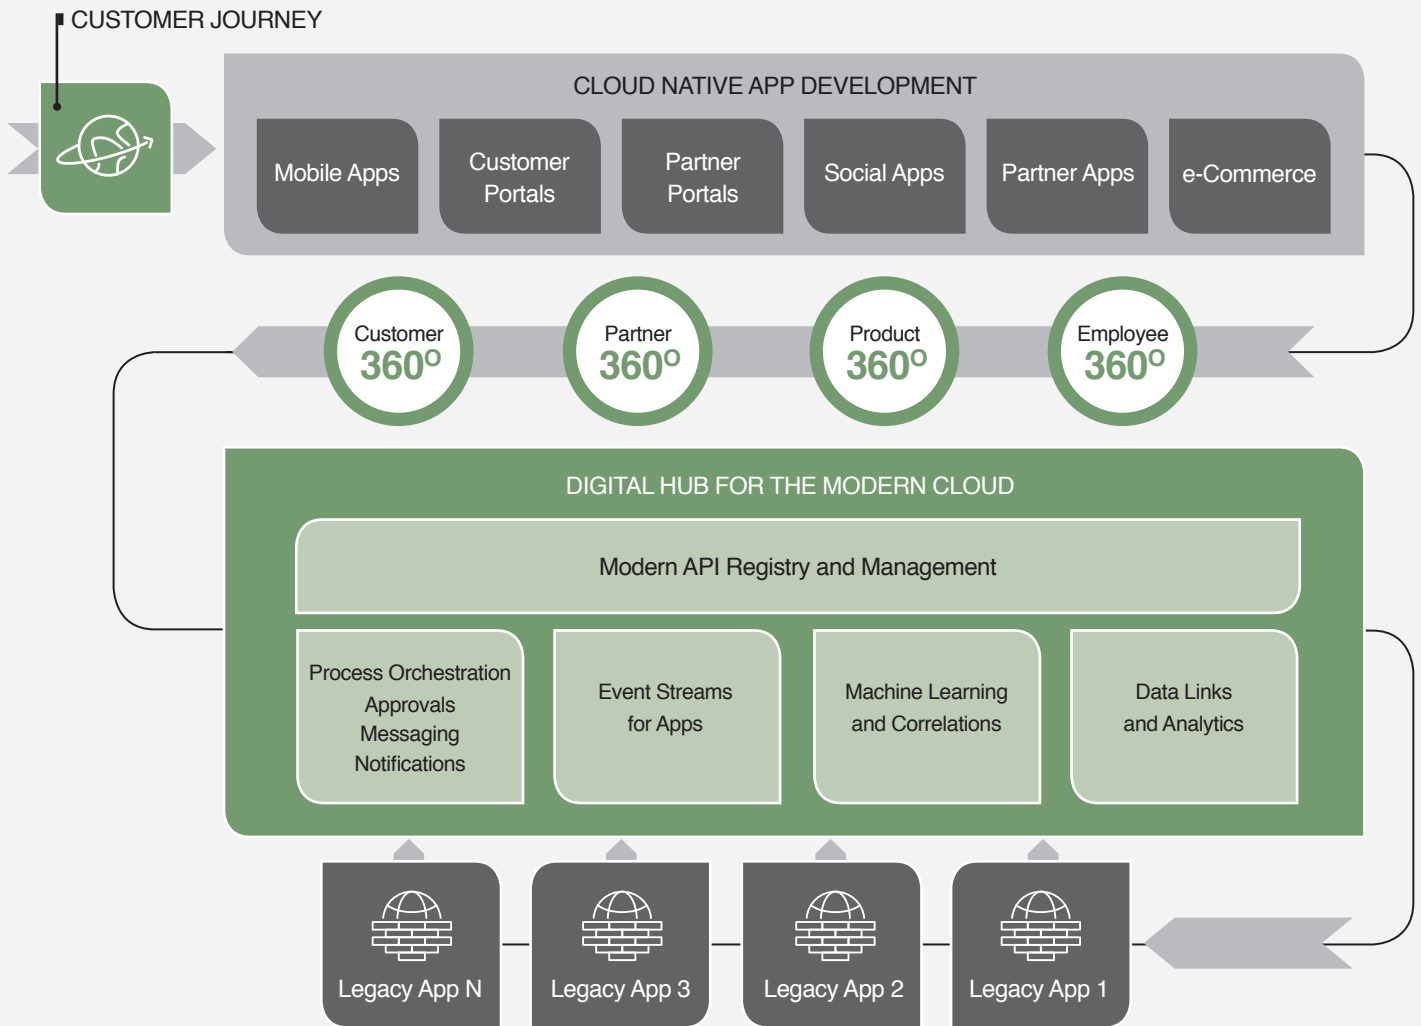

Keste is a Recognized Leader in Cloud Applications and Integration

THE KESTE DIGITAL HUB FRAMEWORK: THE FASTEST PATH TO DIGITAL BUSINESS

Optimize your investment in your existing infrastructure by building a digital hub on top of your legacy apps. The Keste Digital Hub framework gives you the tools you need to serve up old processes in new ways. From Oracle to Salesforce and beyond, we help you connect today's cloud to yesterday's technology.
