

3 options to shift E-Business Suite to Oracle Cloud Infrastructure

Keste will help you migrate to the cloud in a way that works for you.

The entire Keste team has been incredible to work with during our journey to OCI, a true partner for this effort. Flexible, responsive, dedicated the list goes on and on, simply put they were 100% committed to our success. As leaders we all know that these big projects are riddled with surprises, speed bumps, and the occasional mountain that needs to be climbed. Keste handled each of those challenges perfectly throughout our entire journey and I couldn't be more pleased with our partnership!

How we help:

Keste offers 3 options to move your E-Business Suite (EBS) to the cloud.

Disaster Recovery (DR) in the cloud

Benefits:

- Reduces revenue loss
- Better reliability and availability
- Reporting capabilities in a DR instance

A Development (DEV) Environment in the cloud

Benefits:

- Reduces time spent on tactical tasks
- Better scalability
- Lowers resource utilization
- Less money spent on storage

Full EBS in the cloud

Benefits:

- Lower maintenance costs
- Reduces the strain on IT
- Improved performance
- Modern infrastructure

Project Scale:

Small - up to 4 weeks
Medium - 4-6 weeks

Small - up to 2 weeks
Medium - 2-4 weeks

Custom Package
Longer Timeframe

Why you should consider:

DR in the cloud:

Painpoint:

- Lack of basic DR environment for business continuity

DEV in the cloud:

Painpoints:

- Provisioning nightmares
- Seasonal spikes
- No testing in cloud

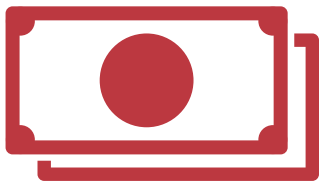

Full EBS in the cloud:

Painpoints:

- Aging hardware like HP-UX, IBM-AIX, and Solaris
- Expensive licensing

Ways to save money:

Sign a multi-year managed services contract and we will migrate you to the cloud for free

With Oracle's Velocity Program you save \$\$\$ on your journey to Oracle Cloud Infrastructure. These savings can also be applied towards an Oracle Cloud subscription, a proof-of-concept, implementation and/or consulting.
